TEST SEQUENCE FOR CE MARKING

5.4.2 Resistance to repeated pressurization in water → **1** **5.4.3** Immersed thermal resistance of thermal insulating material ✗ Test at **6 bar** is excluded

5.4.1.1 Resistance to cold and hot storage

5.4.1.2 Sea water resistance

5.4.1.3 Resistance to cleaning and disinfection

5.4.2 Resistance to repeated pressurization in water ✗

2 **5.4.4** Tensile strength of thermal insulating material
5.4.7 Resistance to permanent deformation of thermal insulating material

3 **5.4.5** Tensile strength of seams

4 **5.4.6** Tensile strength of closures

5 **5.5** Practical performance test
5.5.5.2 Test dive ✗ Only points **a), b), and c)**
5.4.1.3 Depth dive ✗

6 **6** Marking ✗ Additional information specifying the **final use for surface activity**

7 **7** Information to be supplied by the manufacturer ✗ Information adapted to the new conditions
