INTERREG EUROPE    	2016	CLUSTERS3	Leveraging Cluster Policies for successful implementation of RIS3 Regional authorities across Europe are aware of the challenges and issues regarding SMEs dimension. And they know the importance of the contribution that can be expected from competent cluster organisations supported by a cluster policy. CLUSTERS3 project engages seven regional and national authorities. All of them are willing to learn and improve their practices from this project. Participation of TCI Network of practitioners and experts as advisory partner reveals also the interest of this issue at a larger scale. CLUSTERS3 main objective is to improve the implementation of cluster policies and their coordination with other competitiveness related policies, in the framework of RIS3, boosting Growth and Job creation through the insertion of SMEs in Global Value Chains.	203.333,60	PGI00304	https://www.interregeurope.eu/clusters3/
	2016	ESSPO	Efficient support services portfolios for SMEs So far considerable budgets have been invested across EU for SMEs support measures, however their impact on the economy of EU territories could be improved. Therefore, the aim of ESSPO project is to address the issue of efficiency of SME support policies and develop comprehensive support portfolios designed as policy mixes, which would identify and establish synergies between different services and smartly target relevant segments of SME population. The project takes a long-term approach to contribute to the creation of effective and efficient SME support service portfolios, which are capable to impact the regional economies via increasing SME's competitiveness, especially focusing on their growth on national and international markets as well as on their improved engagement in innovation processes. ESSPO partners design and deliver mechanisms to improve SME policy instruments in 8 different territories on national, regional, sub-regional and local level. Tools which are used to implement ESSPO processes involve interregional learning process engaging the stakeholders and project consortium, peer reviews and mapping exercises, finishing with regional action plan of the policy improvement in each territory which is designed in continuous dialogue among partners and relevant stakeholders and accompanied with good practices.	178.707,40	PGI00087	https://www.interregeurope.eu/esspo/
